

## "Customize Our Online Courses & Tests"

### Customization Center

BridgeFront offers the unique flexibility to customize our course content. No other healthcare education company offers a similar solution. BridgeFront's Customization Center offers you the ability to edit ANY course in our library without losing the functionality of the platform OR paying exorbitant customization consulting fees.

The Customization Center offers unprecedented editing capabilities. No need to re-invent the wheel—take a BridgeFront course, annotate one or more pages, add a new page you created and even delete one of our course pages.

### Your Customization Tools:

#### Course Annotator:

Add a link to any page in a BridgeFront course and your students will see the targeted information you want to reinforce (such as a specific policies and procedures).

#### Course Editor:

Deactivate any BridgeFront course page or add new pages, with organization specific information, to a BridgeFront course. No other company can offer this!

#### Test Editor:

Test student knowledge on the custom content you just added—add test questions to our database of questions and track test results.

### About Us

BridgeFront provides online training products and services to over 10,000 healthcare organizations today. Our online education center allows organizations the flexibility to create individualized learning plans, edit our existing course content, build custom courses and improve staff competency levels.

### Features & Benefits

**Requires little Technical Skills**—By following a few simple steps and a standardized process, we can walk you through how to customize our course content & add custom test questions.

**Simple to Update**—Our online courses and tests can be updated at anytime if a policy, procedure or regulation is changed.

**Comprehensive**—Course outlines, topics and self checks are all written by nationally recognized experts.

**Management Reporting**—Easily view and create custom employee learning status reports every step of the way.

**Easy to Understand**—Your custom concepts can be presented in a variety of ways and on multiple occasions to improve comprehension.

**You Control Assignments**—Once a course is customized, you can assign it to as few or as many students as you want.

**Certificates**—Printable certificates of completion are available once the course has been passed.

**Virtual Bookmark & Notes**—Students can take notes online and bookmark their place in the course to continue at a later time, if needed.

**Economical & Green**—No costly instructors and classrooms; available online 24/7 and helps preserve our environment by saving on costly energy.

*"BridgeFront's online education program delivers exceptional compliance and skill building courses. We value the support BridgeFront has given to make our program a success."*

- Sandi Green, CHRISTUS Health

## How Does the Customization Center Work?

Content customization strengthens and enhances learning by building direct correlations between the educational material and the learner's day-to-day tasks. The possibilities are endless—tie the education to specific information systems you use or the unique policies and procedures you want to make sure employees follow.

### **Course Annotator:**

This tool allows you to add a link to any page in a BridgeFront course. Your students will then see the targeted information you want to reinforce (such as a specific policies and procedures).

### **Course Editor:**

Deactivate any BridgeFront course page or add new pages, with organization specific information, to a BridgeFront course. Include text, links to web pages, and/or links to documents, audio files, video files stored on your intranet.

### **Test Editor:**

Through a few simple steps, add test questions at the end of one our online courses. Be sure to test your staff on your organizational specific information, such as state preemptions and policies or procedures.

Here's the true value — all these customizations can be accomplished without impacting BridgeFront's ability to keep the course updated. Any course page that BridgeFront owns (e.g. you haven't deleted) will continue to show any updated information we publish as the course gets updated. This benefit makes this tool incredibly unique and powerful. There's no need to worry about your customized course not containing the most up-to-date content.
